

Akash Pandey

Senior Engineering Manager — Distributed Systems / Platform Engineering

Bangalore, India

akashraj.pandey@gmail.com — LinkedIn

Summary

Engineering leader with 10+ years of experience building distributed workflow orchestration systems, internal platforms, and automation infrastructure. Led active-active architecture initiatives, event-driven execution systems, and zero-downtime migrations supporting 10M annual executions across global engineering organizations.

Experience

Visa

Bangalore, India

Senior Engineering Manager / Staff Engineer

Oct 2019 – Present

- Led architecture and scaling of distributed workflow orchestration platforms handling 15K–20K jobs/day and 10M annual executions
- Designed multi-data-center active-active architecture with distributed execution coordination and failover handling
- Re-architected execution engine into an event-driven orchestration platform, improving execution latency by 80%
- Led zero-downtime migration from MongoDB to MySQL involving tens of millions of records
- Built internal automation and orchestration platforms used across infrastructure, cybersecurity, and platform engineering teams
- Led AI-driven workflow automation initiatives involving MCP tooling and agentic execution systems
- Improved platform reliability through concurrency, scheduling, and distributed coordination optimizations
- Managed and mentored 8+ engineers across Staff, Senior, and Software Engineer levels

CGI

Bangalore, India

Software Engineer

May 2016 – Sep 2019

- Developed backend services and enterprise workflows for ERP and payment card digitization systems
- Built Spring Boot microservices and ReactJS-based internal applications
- Improved operational reliability through debugging, testing, and workflow stabilization initiatives

Skills

Languages & Backend: Java, Spring Boot, Node.js, REST APIs

Distributed Systems: Active-Active Systems, Event-Driven Architecture, Fault Tolerance, Distributed Coordination

Data & Infrastructure: MySQL, MongoDB, Hazelcast, Kafka, Elasticsearch

Platform Engineering: Workflow Orchestration, CI/CD, Automation Platforms, Observability

AI Systems: MCP, AI Workflow Automation, Agentic Tooling

Education

Bachelor of Technology (B.Tech)

Anna University (Sona College Of Technology)
